# IN YOUR DREAM TEAM

Thing is, you can't do it alone, that's the best bit about it. We've become really close and I think that's why when we take to the court we're so strong together.

# Improving your Club Experience

**Are you responsible for shaping your club?**

**Are you a team captain who spends a lot of time talking to and sorting your team?**

**Do you ever have that last minute panic trying to find a player to enable you to field a team?**

If so, ensuring your club offers a great experience will help you attract players, members and volunteers and make sure they stay.

To help your club do this England Netball are delighted to offer "Improving your Club Experience". This engaging and interactive session - designed and delivered as part of Sport England's Club Matters resources - will help you to understand how to offer a better experience at your club

In the past the club experience was often focused solely on the delivery of the sport, through training and matches; now participants want more. Through looking at the lives of women, and in particular their values which underpin what they want from a club environment, the session will give you a better understanding of who you are trying to attract, how your provision gives them what they want and practical support to make a difference.

The session is funded by Sport England and therefore free to all participants.

## Who is this workshop for?

Anyone involved in the running of a club or team, we'd encourage team captains to come along. Why not come along with someone else from your club?
